

ECOSY PELLETT

The Altech Ecosy pellet stove is a sleek, freestanding pellet stove featuring beautiful, rounded shapes. This pellet stove is unique, as it does not require any power. This is because the Ecosy features a pellet burner equipped with a primary and secondary aeration system. This aeration system causes the gas from the pellets to be burnt at the top of the unit, resulting in wonderful flames. The aeration system is completely natural, and this pellet stove does not have any fans. As a result, the Altech Ecosy pellet stove does not require power, is incredibly quiet and is not susceptible to malfunctions.

PRODUCT BESCHRIJVING

Enjoy the flames to the fullest

In addition to the delightful, intense heat produced by the Altech Ecosy pellet stove, this stove also allows you to enjoy the wonderful flames to the fullest. The Ecosy pellet stove features a large window, which offers a great view of the fire.

The Altech Ecosy pellet stove is available in two colours: natural soapstone with anthracite cast iron and uniform black. Both the soapstone and the cast iron of the uniform black version are spray painted black. The Ecosy is a front-loaded pellet stove and is equipped with a 4 kg pellet burner as standard.

Curious about the Altech Ecosy soapstone pellet stove?

Experience the delightful heat and take a look at this stove in the showroom of one of our dealers.
