PRODUCT BESCHRIJVING

ALTECH MAX MASSIV RB

The name of this stove says enough, The Max Massiv B is constructed from massive [soapstone](#) blocks. This ensures excellent heat storage and long-lasting heat output, even after the fire has gone out. The combination of the round shape of the stove and the square window gives this model playfulness with clean lines, giving it a modern look.

With an output of 3 to 8.5 kW, you will stay comfortably warm on cold winter days without consuming too much wood. In addition to cosy warmth and cosy ambiance, the Max Massiv is also good for your wallet.

MAXIMUM HEAT WITH THE ALTECH MAX MASSIV RB

The stoves of Altech consist of a large amount of soapstone, which stores the heat and then gradually releases it. For even more heat storage, the stoves in the Max Massiv series even have the option of building up additional layers of soapstone. This ensures that the stove can heat any room optimally.

CURIOUS ABOUT THE ALTECH MAX MASSIV RB SOAPSTONE WOOD STOVE?

Experience the wonderful warmth and admire this stove in the showroom at one of our [dealers](#) or at the Experience Centre of [HAVÉ Verwarming](#).
