PRODUCT BESCHRIJVING

ALTECH MAX MASSIV RH

The name of this stove says enough, the Max Massiv RH is built from solid [soapstone](#) blocks. This ensures excellent heat storage and long-lasting heat output, even after the fire has gone out. The combination of the round shape of the stove and the square window gives this model playfulness with clean lines, giving it a modern look. In addition, the Max Massiv RH has an extra-high pane of glass, providing a beautiful view of the flames.

With an output of 3 to 8.5 kW, you will stay comfortably warm on cold winter days without consuming too much wood. So besides cosy warmth and a cosy atmosphere, the Max Massiv is also good for your wallet.

MAXIMUM HEAT STORAGE WITH THE ALTECH MAX MASSIV RH

Altech stoves consist of a large amount of soapstone and store heat in it, then gradually radiate it again. For even more heat storage, the Max Massiv series stoves can even be fitted with additional layers of soapstone. This ensures that the stove can heat any room optimally.

CURIOUS ABOUT THE ALTECH MAX MASSIV RH SOAPSTONE WOOD STOVE?

Experience the wonderful warmth and admire this stove in the showroom at one of our [dealers](#) or at [HAVÉ Heating's](#) Experience Centre.
